

Protect Your ATM/ITMs

*STS Security Gates specialize in helping banks find an effective and **AFFORDABLE** solution to ATM /ITMs **Hook & Chain Attacks**. Our wrap-around security gates provide maximum protection for your ATMs at a fraction of the cost of most front-only security gates.*

Don't Leave your ATM Vulnerable to a Costly Physical Attack

Custom Wrap-Around Security Gates offer the ultimate protection against theft and vandalism. Designed with durability and effectiveness in mind, our gates ensure your ATMs remain safe and secure. Gates are custom built to accommodate your ATM setup

- Patent Pending Front Gate fits close to your ATM, preventing criminals from wrapping a chain around the gate.
- Internal Blade-Breaker Technology: Saw blades and grinder wheels will shatter if someone attempts to cut the gate.
- Hidden Shackle Padlock: Hidden shackle padlock cannot be accessed by bolt cutters, saws, or pry bars
- Pry Resistant Alignment Tab and Shroud: The alignment tab and lock shroud ensures that the lock will consistently line up in the correct place, making the gates easy to use. Prevents attempts to bend the locking mechanism.

Act Now!

***Invest in our wrap-around security gates for the ultimate
ATM protection***
